Chapter 4 Analysis

For Chapter 4, the error analysis has been replaced by a Chapter Project Analysis. The analysis includes the following parts.

**Part A**
You are to write an evaluation of the project. Tell what you liked and/or disliked about the project. Include what you have learned from the project as well.

**Part B**
Evaluate your group members based on their contributions to the project. For example, if you were assigning final grades to them, what grade would they receive and why.
