VOCABULARY TERMS

Chapter 9, Part 1

Allele (148)
Character (146)
Dominant allele (148)
F₁ generation (147)
Gamete (148)
Genetics (146)
Genotype (149)
Heredity (146)
Heterozygous (148)
Homzygous (148)
Hybrid (147)
Law of segregation (148)
Locus (149)
Monohybrid cross (148)
P generation (147)
Phenotype (149)
Punnett square (148)
Recessive allele (148)
Trait (146)
True-breeding (148)

Chapter 9, Part 2

Autosome (165)
Carrier (154)
Chromosome theory of inheritance (162)
Codominance (159)
Dihybrid cross (150)
Gene (146)
Genetic recombination (163)
Incomplete dominance (158)
Law of independent assortment (151)
Linkage map (164)
Linked genes (163)
Pedigree (153)
Pleiotropy (160)
Polygenic inheritance (160)
Recombination frequency (164)
Rule of multiplication (152)
Sex-linked gene (165)
Testcross (152)
Wild-type trait (153)
