Creating a Focused Review

Log into the ATI website at http://www.atitesting.com/

Select MY RESULTS on the left hand side

Under "Select an assessment to review" select CREATE next to the assessment for which you wish to create a Focused Review

Select ALL TOPICS TO REVIEW, and then click on CREATE FOCUSED REVIEW in the lower right hand corner.
The next screen will present a Focused Review for the assessment. Selected sections of Review Modules; DVDs; NCLEX Client Need Categories; Thinking Skills-Clinical Judgment; Nursing Process; and Priority Setting will be listed when there is material related to the topic to review.

Click on an area you would like to review. For example, by clicking on the related pages in the Review Module will appear on the screen.

The same process may be used to review all desired material in the Focused Review.
